Dear Oakham RFC member,

A Note about the RFU's database, Game Management System (GMS)
Many of you will know the GMS as you have kindly registered yourself or your children at the beginning of each season. The RFU has advised us that they are carrying out a massive data cleanse of the system as they believe that there are too many outdated or incomplete profiles on the system. Every club is being asked to ensure that its records are up to date.

Please can you help us with this very important task? Would all adult members kindly log on and check their details to make sure that the following are listed and correct -

Full Name (No nicknames)
Address
Post code,
Date of Birth
Gender
Verified Email Address.

If you also hold a Parent Account, it should show all family members active at ORFC as a linked account.

Please note that the deadline is July 27th. After this date, the RFU has advised that it will archive any accounts that do not meet this minimum data requirement.
Thank you in advance for your kind cooperation.

If there are any queries, I will do my best to assist secretary@oakhamrfc.com

Sincerely,

Andy Smith
