5<sup>th</sup> February 2021

To All Club Members,

As we enter the second half of this season thoughts are turning towards next season which will see the club's Centenary and the events we have planned to celebrate this milestone in the club's history.

The launch event on the calendar is a "Sportsman's" dinner to be held on Friday 7th October 2022 in the large function room at the clubhouse, tickets for this will be limited so get this date in your diary. We are currently finalising arrangements for the main speaker and other guests so watch out for forthcoming details so that you can get your tickets booked.

A host of other events are being planned which are listed below, plus a range of merchandise bearing the club centenary logo will be available for purchase including a new club blazer. A centenary booklet is currently being compiled which will chronicle the club's history from its formation in 1923 up to present times.

There will also be a competition for the younger girls and boys of the club to design their own centenary tee shirt.

It promises to be a very exciting time for all members so look out for further news in the coming weeks.
